

MESSAGES OF SPIRITUAL ENLIGHTENMENT AND TRUTH

THE MINISTER is to be a live man,
a real man, a true man, a simple man,
great in his love, great in his life,
great in his work, great in his sim-
plicity, great in his gentleness.

COSMOGONY AND COSMOLOGY

BY

DR. M. DOREAL

The Mystery of the Universe is contained in the Unwritten Kabbala; the Keys to the Understanding of the formation of the earth, the beginning of man and of his evolution to the consummation are veiled in its symbolism. In the old Kabbalistic Mystery Schools these keys were taught to the select few. Because they were never written, the Occult Wisdom of the Kabbala, the Sepher Yetzirah, the Book of Concealed Wisdom, and the rest of the Ancient Teachings have been lost to the world at large. The findings of modern Science have not as yet even scratched the surface of the Great Knowledge which the Ancient Races knew about the Laws of Creation and of the manner in which the Supreme Hidden One manifested in the material.

The Mysteries which Doreal has given in this book are much too great and all-encompassing to iterate in this review. May it suffice by saying that COSMOGONY AND COSMOLOGY is more than a history of Universal events, for he has shown the coming forth of the Laws of Creation while they were in the World of Formation even before the Cosmic Condensation became manifest.

A FRIEND IS A PERSON--

Who will help you in the hour of sickness;

Who will lend you a dollar without deducting the interest;

Who will help you up hill when you are sliding down;

Who will defend you in the hour when others speak evil of you;

Who will believe in your innocence until you admit your guilt;

Who will say behind your back what he says to your face;

Who will shake hands with you wherever he meets you, even though you wear patches; and

Who will do all these things without expecting any return.

NEWSLETTER

Dear Students and Friends,

It is with gratitude and happiness that we again commune with you in all parts of the world and in all paths of life, to give you an idea, a picture of what is happening here in the office, the print shop and in the valley of Shamballa Ashrama.

Living out in the world and being of service is a wonderful but lonely task and one longs for some news and view of others of like interest. Our deepest interests always find our super conscious mind reaching out trying to fathom the depth of our beloved Guru's teachings. We also try to comprehend the mental expanse of the student or students who would even consider trying to add to or take away from Dr. Doreal's great work. We have many talents or qualities that should be manifested, (such as leaving the body at will) and there is work and joy in being a knower and user of the qualities that we possess. We encourage all of the students in the outer world and those who live here to give of Truth and let the Christ Spirit flow through them to all who will receive. The only reward is peace of mind and happiness in knowing that we are doing the will of the Divine.

Many Happy Returns to two of our

fellow students and friends, Mrs. Norma Shwed and Bill Miner. May we express our wish for you, through Pope's statement, "Oh! be thou blest with all that Heaven can send,
Long health, long youth, long pleasure--
and a friend."

Dr. Robert Morrow gave a very interesting talk last Sunday and we also had a group discussion on "What do we need now? What do the people need now?" People need encouragement, they need guidance to help them solve their everyday problems. We need to present the advice in simple language and actions. We are reminded of the words of the Prophet by Kahil Gibran,
"Life is indeed darkness, save where there is urge.
All urge is blind save when there is knowledge.
And all knowledge is vain, save where there is work.
And all work is empty save when there is love,
And when you work with love, you bind yourself to yourself
And to one another and to God."

Our membership has almost doubled this month. From a total of twelve last month, to date we have already increased to twenty-one for August. The Great Light is reaching out to those who will receive.

THE MIND AND HEALTH OR LAW OF HEALING

BY
DOREAL

(Part 3)

Christian Scientists say, "There is no such thing as disease, or sickness." Fundamentally they are right, it is their interpretation that is wrong. There can be no advantage from denial of a thing that is. I have often seen a Christian Scientist going around saying, "I am well, there is no sickness, "and so forth, but I have never to my knowledge found one so doing unless they had a pain or ache somewhere. It is not much more sensible to recognize the existence of a thing that exists, and yet know that the mind and will of the individual has power over the body to heal it from all disease? There is sickness and disease, but I, as a dominant WILL, with the ability to call upon the Cosmic force, am able to restore normalcy to the body. Truly, then, we can say that we are God-men and man-gods, for we have established our inherent right to dominion of the

body.

When the body is under the direct command of the brain, orderly functions of all parts are insured. One of the first and greatest laws of healing is to induce in the patient a mental picture of himself as he would like to be. Mental imaging, reinforced by the will, is one of the greatest factors in healing.

Everything is first created on the immaterial plane before it comes into manifestation, and following this law, health must be first created on the immaterial plane before it will manifest as an objective reality.

A few moments each day given to visualizing the condition of health you wish to express is a great aid in the proper preparation of the mind and will in gaining control over the body.

You have all seen the man or woman who is a confirmed follower of patent medicine advertisements. This type of person, upon reading an advertisement, immediately feels all of the symptoms described therein. There is a sympathetic reflex set up in the body by the interest and attention concentrated upon the symptoms. By their power of visualizing

they cause the mental image of a sick body to be created, and the brain immediately begins getting nerve reactions from the mind, but not from the body, for it is in the mind that the sick body exists. Nothing could convince these persons that they did not really feel all of the symptoms that they had read of.

The above illustration goes to show how closely the mental and physical planes are connected, and how one can deeply affect the other. Understand, merely visualizing health is not sufficient in itself alone, to restore a broken down body, but it is the first great step in that direction. It is by the repeated visualization that the mental image takes on the aspect of reality, and the mind directed by the will and using the magnetic force of the body is able to rebuild the body in the form imagined.

We hear a great deal from physicians about lack of certain corpuscles in the blood, making the body susceptible to disease. This again is a symptom, not a cause, for if the polarities of the body were balanced there would be no lack of the necessary balance of the blood.

Many times this question will be asked, "What are these polarities, and how do they manifest in the human body?" The positive and negative polarities are the two creative forces of the Cosmic Consciousness that make it possible for everything to exist in form. Both must be present in equal amount in the body for perfect physical harmony and balance to be present. These two forces enter in separate parts of the human body. The positive polarity is centered in the head in the second section of the pineal gland, while the negative polarity is centered in the solar plexus. The two polarities enter the body through the first section of the pineal and the positive is diverted to the second section of the pineal, while the negative follows a fourth dimensional channel downward into the solar plexus.

As the second section of the pineal is also the seat of the subjective mind in the body, it follows that thought must play a very important part in the flow of positive energy over the body. If the mind is in the proper condition, it allows free flow of energy. This is true as far as mental condition is concerned. On the other end of the scale is the negative polarity. Certain types of thought tend to cut down the flow of negative energy and throw the body off balance, just as much as other thoughts cut down the flow of positive energy.
